- **Bachelor of Computer Applications** - B.M.S. College for women (pursuing) - 8.5 CGPA
- **Pre-University Course** – BMS PU College for women Bengaluru - 75% (2024)
- **SSLC** – Excellent English High School Bengaluru - 84.8% (2022)

PROJECT

Student Performance Analysis

September 2026

Technologies Used: SQL, PowerBI

Description:

Analysed student marks and attendance data using SQL and Power BI. Created queries to identify top performers, subject-wise performance, attendance patterns, and average scores, and developed an interactive Power BI dashboard to visualize key insights.

Customer Shopping Behaviour Analysis

September 2026

Technologies Used: SQL, Power BI

Description:

Analysed 3,900 customer shopping records using SQL and Python, performed data cleaning and exploratory analysis, and developed an interactive PowerBi dashboard to identify sales, customer product and discount.

Job Application Tracker

July 2026

Technologies Used: Node.js, MongoDB, JavaScript

Description:

Developed a backend-based Job Application Tracker to manage and organize job applications. Implemented features for adding, viewing, updating, and deleting application details, with MongoDB used for storing and managing application data.

ACHIEVEMENTS

- NSS (National Service Scheme) Coordinator
